

# ALUMINIUM BED lacquered Bruno Fattorini

2004

A bed with a 57 cm high headboard, "plain contour" without panel.

## Frame

Anodized aluminium frame, gloss painted white, black, red.

## Sizes

Widths range from one metre to 210 cm, with a fixed length: 210 cm.

Headboard height (57 cm) is not modifiable.

Special sizes for slats and frame both in length and width are available, in multiples of 10 cm with a longer lead time.

Special sizes both in length and width require a longer lead time and a 30% extra charge on the next regular size up.

As to length only, the extra charge stands at 15% on the price of the ordered dimension.

For lead time, please contact our Sales Department.

Maximum possible length 220 cm (slats usable length 210 cm).

Bed height: 30 cm, unmodifiable.

## Slat bases

The slat base is not included in the bed price. Slat bases are described and priced from page 6.6 to 6.8.

Single slat bases may be combined in a double-bed structure using the special aluminium-painted steel support bar.

**For further information about specs, please refer to pricelist, section 8 tables of materials/colours.**

# ALUMINIUM BED

Bruno Fattorini

1997

Beds in various versions:

- sommier
- with headboard: 57 cm high, "plain contour" without panel.
- sommier with canopy (canopy in height 210 cm):

## Frame

Frame in natural anodized aluminium. Finish in polished aluminium available as an option for the version with 57 cm high headboard and for the canopy version of the sommier.

## Sizes

Widths range from one metre to 210 cm, with a fixed length: 210 cm. Unmodifiable heights of headboards: 30 or 57 cm.

Special sizes for slats and frame are available, in multiples of 10 cm, except for canopy versions.

Special sizes both in width and in length require a longer lead time and a 30% extra charge on the next regular size up.

As to length only, the extra charge stands at 15% on the price of the ordered dimension.

For lead time, please contact our Sales Department.

Maximum available length 220 cm (slats usable length 210 cm).

Bed height: 30 cm, unmodifiable.

## Slat bases

The slat base is not included in the bed price. Slat bases are described and priced from page 6.6 to 6.8.

Single slat bases may be combined in a double-bed structure using the special aluminium-painted steel support bar.

**For further information about specs, please refer to pricelist, section 8 tables of materials/colours.**

# ACCESSORIES: slats

## MDF Italia SLAT BASES

The frame is in natural, 30x40 mm steel tubing, welded at right angles and finished with aluminium paint.

Compared to the bed frame, the base lies 10 mm lower.

All slat bases are self-supporting, and are available in a fixed position version, with a reclining headboard, or with reclining headboard and footboard.

The reclining headboard has six positions: 15°, 20°, 29°, 36°, 43°, 50°.

The footboard has 4 positions: 7°, 12°, 16°, 20°. The slats are made of 8 mm thick beech ply.

All slat frames may be fitted with fixed slats or slats that are individually self-adjusting (length 68 mm) or adjusting in pairs (length 38 mm). The slats tilt and adjust because they are mounted on flexible joints (they can change position both horizontally and vertically). They thus allow the mattress and base to adjust perfectly to the needs of the body and mattress.

Single slat bases may be combined in a double-bed structure using the special aluminium-painted steel support bar.

**Custom-made slat bases are available. For both length and width extra charge of 30% on the ordered dimension, for length only 15%.**

**Slat bases up to a max. of 100cm in width have one single set of slats; with larger sizes they come with two sets of slats.**

# ACCESSORIES

## MATTRESSES

MDF Italia offers 4 kinds of mattress in 10 different widths.

The standard length is 2 m. On request, special-length mattresses are available (190 or 210 cm).

- **Orthopaedic sprung mattress (H 18/20 cm)**

Orthopaedic mattress with biconical springs in 2.2 mm tempered phosphatized steel. Filled with carded white cotton (1300 gr/sqm). Cover in 100% cotton fabric, sanitized.

- **Two-season orthopaedic sprung mattress (H 18/20 cm)**

Orthopaedic mattress with biconical springs in 2.2 mm tempered phosphatized steel. Filling: wool for winter side, in white carded cotton for summer side. Cover in 100% cotton, sanitized.

- **Novolates mattress (H 17 cm)**

One-piece polyurethane Novolates with two different densities 35 o 50 kg/cubic m

Filled with:

- for summer side, carded white cotton together with a layer in polyester fibre
- for winter side, white wool together with a layer in polyester fibre

Cover in 100% white cotton, sanitized.

The cover is easily removable and requires dry cleaning. Thanks to its special characteristics 'Novolates' adapts perfectly to the body shape.

Two versions available:

- medium density for weights to 80 kg.
- **high density for weights over 80 kg, at an extra charge of +8%**

- **Latex foam mattress (H 17 cm)**

Latex foam mattress structured using cells of varying diameters, which are larger in the areas requiring lower performances (head and feet) and smaller in the central part of the mattress (back). This allows the mattress to support the body perfectly. The cells, which are open and interconnected, guarantee a free circulation of air.

Filled with:

- for summer side, carded white cotton together with a layer in polyester fibre
- for winter side, white wool together with a layer in polyester fibre.

Cover in 100% white cotton, sanitized, easy to remove, dry cleaning required.
