

## Balzac

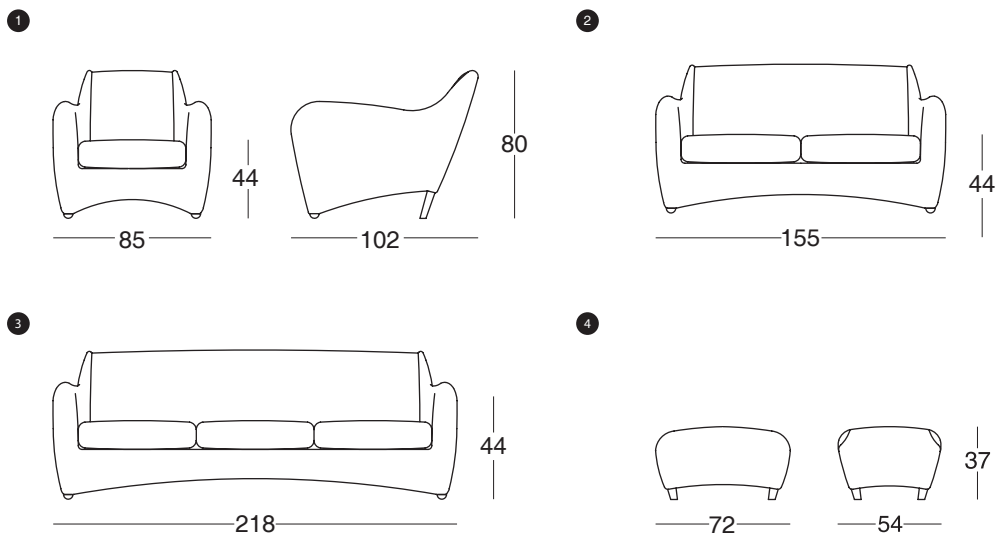

### Matthew Hilton

An iconic early 90s design with genuine poise and balance. This classic design by Matthew Hilton is a wonderfully proportioned piece, luxurious in comfort. It is featured in Taschen's 1000 chairs, is widely used in advertising, and is considered by many as the final word in club chairs.

Made at SCP's specialist upholstery factory in Norfolk, England. The frame is solid beech with jute webbing and zigzag springs. Upholstered with 100% natural and sustainable materials, including latex and coconut fibre, needled lambs wool, needled recycled wool, and recycled foam. As standard, the seat cushion is filled with feathers but other options are also available.

Made in the UK.
