Nominated for the Interior Innovation Award Imm Cologne 2008

A modular seating system with highly functional configurations, corner or U-shaped ones too.

The peculiar design in the backrest allows variability in depth.

The sofa is either left or right, with one or two arms.

## Frame

The frame of the sofa is in solid wood, suspension with elastic belts covered with indeformable variable-density polyether.

The sofa frame rests on cylindrical small feet in polished aluminium or in white or black lacquered steel. Height 15 cm.

## Cover

The upholstery covers every part of the sofa and is completely removable.

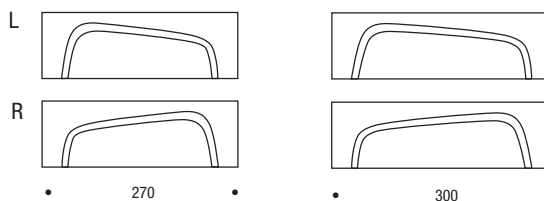

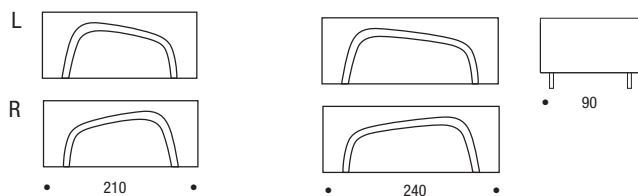

Optional extra covers if required.

The units in leather have a fixed cover only and, at MDF Italia's discretion, may have one or more seams based on their size.

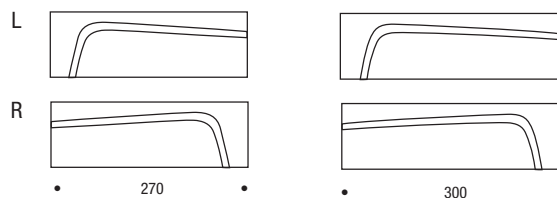

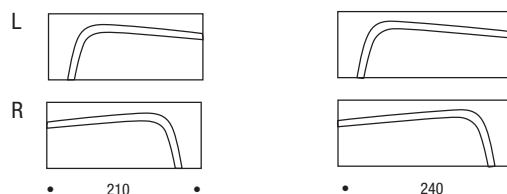

For the choice of upholstery, please see the table on page 1.69 and the section "fabric collection" on the website.

With customer's own leather, in order that the product is properly manufactured, the leather piece must be larger than 5 sqm and with no defects, such as scars or holes.
