The **Strap chair** by **Scholten & Baijings** is a stackable, lightweight chair with armrests. The way the straps are wound around the tubular frame gives the upholstery its unique structure.

The braided straps in conjunction with the typical **Scholten & Baijings** colour make the chair distinctive.

The strength of the material, a very strong polyester yarn, in combination with this type of braiding render foam and other upholstery materials superfluous.

The special polyester construction and powder coated metal frame ensure that the seat is ideal for both inside and outside use. The chair can be used in a dining room, on a balcony or terrace and as a lawn chair.

The **Strap chair** is easy to stack compactly and therefore very suitable for bars and restaurants.
