HI-LINE 6— FERRUCCIO LAVIANI 2012

A simple, linear, unitary project. Hi-Line 6 is more than just a kitchen, it is a space to be lived in. Rigorous forms, wealth of detail and attention to construction quality: plenty of technology and precisely defined volumes. A space organized with esprit de géométrie. The base units are taller, so as to store more and better.

photo finishings

- _ plaster bronze laminated base units doors and worktop
- _ light oak snack table and shelf
- _ titan Hi-Line 6 suspended shelf for hood
- _ matt lacquered dolomite columns
- _ glass columns with hidden hinges and glass shelves
- _ Wire chairs by Charles & Ray Eames (Vitra)

HI-LINE 6— FERRUCCIO LAVIANI 2012

A simple, linear, unitary project. Hi-Line 6 is more than just a kitchen, it is a space to be lived in. Rigorous forms, wealth of detail and attention to construction quality: plenty of technology and precisely defined volumes. A space organized with esprit de géométrie. The base units are taller, so as to store more and better.

photo finishings

- _ matt lacquered white base units doors and side panels
- _ black oak snack table
- _ Silestone white blanco zeus suede worktop
- _ titan Hi-Line 6 suspended shelf for hood
- _ matt lacquered white columns (with operating column 1050 mm)
- _ 505 system by Nicola Gallizia (Molteni&C) matt lacquered chalk white
