

Dada

INDADA— NICOLA GALLIZIA 2010

A modern and sophisticated look for the renewed INDada kitchen. The concept of INDada project is “the richness of simplicity”. A subtraction path identifies formally clear and functionally suitable elements. Shapes, materials, colors and new details that combined in their infinite configurations create a unique and tailor made style, a project plan, a poetic academic exercise. A fine tuning of few but definite words that compose thousands of stories where everyone can find his own expression that speaks of his personality, style, attitudes and dreams.

photo finishings

- bilaminated cocoa oak suspended base units doors, teak and pewter Bond handles
- laminated anthracite plaster worktop
- 015 lighting system pewter rail, pewter shelves and iPad shelf
- Momento containers, pewter and mirror, with clock door
