## **WHERE—** RODOLFO DORDONI 2008

1—  
3

Elegant and designed to be contemporary classics, the Where tables have a wood trapezium structure. The rectangular tops are available in both fixed and extendable versions, and like the round tops in various sizes, are very thick. The top surfaces in wood, glass or marble make them even more functional.

### **FEATURES**

A range of fixed and extendable tables available in different woods or with glass and marble tops. The marble slabs used to make the tops cannot be identical; variations in colour, veining, and fossil inclusions are a guarantee that it is real marble.
