

Quick-step stool

Sarah Kay

A small yet perfectly formed stool that has multiple uses. Made from solid oak, the design looks like the letter A in profile and features a step that can be accessed from either side and a handle detail cut into the top. The step is recessed from the frame on either side with a beautifully designed curve. This stool can be used as a handy step, somewhere to sit or as a side table. Made in the EU.

step stool W40 x D40 x H40 cm
