

KLIP design Victor Carrasco 2014

A plywood oak chair with the finishes in our collection. The seat could be in wood finish, with upholstered cushion or fully upholstered in smooth or stripe version. Perfect for home and contract use, stackable up to 10 chairs for non-upholstered version or stackable up to 4 chairs for upholstered versions. Its name is a reference to the slot in its back, which serves both as a handle for moving it about easily and as a support on which to hang handbags and the like. Totally in line with its original design we have made arms in lacquered steel tubing for our successful Klip chair.

TECHNICAL INFORMATION

Plywood natural oak chair with the finishes in our collection or covered by expanded polyurethane foam.

Different options for the structure:

FOUR LEGS: Calibrated steel structure lacquered in thermoreinforced polyester in white, black or fluorescent orange. stackable up to 10 chairs for non-upholstered version or stackable up to 4 chairs for upholstered versions.

SWIVEL BASE: Calibrated steel structure lacquered in thermoreinforced polyester in white, black or fluorescent orange.

CASTERS BASE: Aluminum swivel base lacquered in white or black, height adjustment system and soft casters.

SWIVEL STOOL: Calibrated steel structure lacquered in thermoreinforced polyester in white, black or fluorescent orange and footrest in stainless steel.

Calibrated steel arms lacquered in thermosetting polyester in black, white or fluorescent orange.

No more than 10 units of the four leg base should be stacked up.

The swivel base chair, the casters base chair and the swivel stool are not stackable.

Don't stack for long time as upholstered can be marked and damage.

VICTOR CARRASCO Spain

Born in Valencia (Spain) in 1974, Victor Carrasco began his professional career after graduating Cum Laude in Industrial Design Engineering at the Polytechnic University of Valencia.

Shying away from trends and fads, he has developed and positioned international brands with remarkable added value, thanks to his passion for synthesis, sustainable growth and his pragmatic vision of the future.

Since 2007, he has been combining his position as strategic director of Viccarbe with that of Design Director for the prestigious American multinational Coalesse (Steelcase Inc.). Likewise, as an industrial designer, he has collaborated with numerous international companies such as Boffi, Glas Italia, Gandia Blasco, LZF, Vibia and Vaalva, among others.

He was the recipient of the Prince Felipe Award for Business Excellence in 2008.
