

Agnes and Edith shelves

Kay + Stemmer

Design Duo, Kay + Stemmer have designed a pair of freestanding shelves called Edith and Agnes. Edith is the smaller 3-shelf version and Agnes is taller with 5 shelves. The shelves come fully assembled and have the hallmarks of classical training; details include radius edges, a gentle upwards taper and perfect proportion. The result is a notably softened looking shelving range, free standing with poise and a sense visual balance. Made in the EU.
