

## Agnes wall mounted shelving unit Kay+Stemmer

The Parnham School trained duo Kay+Stemmer have designed a new version of the popular freestanding shelves Agnes. This version is a three-shelf wall mounted unit, ideal for books or home office filing. It is made from solid oak or walnut. Agnes wall mounted unit comes “out of the box” as a solid one piece item, with no assembly required. The design has the hallmarks of classical furniture-making training; details include radius edges, a gentle upwards taper and perfect proportion. Available in walnut and oak. Made in the EU.
