

## Cedric desk Kay+Stemmer

The Cedric desk is an exercise in simplicity, refinement and deft detailing. Kay+Stemmer have drawn on all of their Parnham School training to produce a piece that has perfect proportion and reveals a mastery of craftsmanship often overlooked in contemporary design. At first glance, the desk has an angular and formal appearance, yet closer inspection reveals a proliferation of rounded edges in the detailing, softening its overall look and highlighting the sense of subtlety in the piece. The Cedric is made from solid European walnut and features a dark brown leather top and lined drawers. This is one for the purists. Made in the EU.

desk W 125 x D 55 x H 75 cm
