
DAVOS armchair design Jeffrey Bernett 2004

The Davos armchair and sofa feature minimalist design with stunning visual impact owing to their harmonious proportions providing exceptional comfort and the possibility of combining two different fabric colours for the lower part. Davos armchairs and sofas are widely used by renowned architects around the world in lobbies and waiting areas or placed at the foot of a bed.

TECHNICAL INFO

Solid wood modules covered in non-deformable polyurethane foam and polyester fibre.
Non-removable cover.
Bicolour covers available.

JEFFREY BERNETT USA

In September 1995, Jeffrey Bennett founded New York based studio B as a multi-disciplinary design consultancy.

At the May 1996 International Contemporary Furniture Fair (ICFF) in New York City, Bennett presented his first collection which was awarded the 1996 Editor's Award for the "Best of Show". Bennett continues to work in many areas -- interior architecture, transportation design, furniture, household products, lighting, fashion accessories, design communication and strategic planning -- winning numerous design awards throughout his career. In the emerging global market for design, Bennett has often been the first American chosen to work with several of his European clients. A current client list includes Authentics, B&B Italia, Bernhardt, Boffi, Cappellini, Covo, Dune, Estée Lauder, Hidden, Magis, Michael Kors, Moooi, Northwest Airlines, Ligne Roset, Samsonite, Swedese, Troy and VICCARBE.

The design work of Bennett is widely publicised, including feature articles in the May 2003 Metropolis, January/February 2003 WohnDesign, December 2002 Esquire and October 2002 Weekend LeVif/L'Express. In addition, Bennett is also a frequent lecturer at schools and design events around the world.
