

# HIGH CONTAINER

Design by Sebastian Herkner

HIGH CONTAINER, decorative silvery jars. Sebastian Herkner's vases may seem unassuming at first glance. But a closer look reveals a special aspect of the hand-blown pieces. Created in the manner of Bohemian craftsmanship, a dash of liquid silver is injected into the glass under pressure. The illustrious double-walled result lends a touch of glamour to the jars, available in orange, dusty rose, silver or blue. All that's missing is the flowers
