GLISS MASTER — VINCENT VAN DUYSSEN 2015

1—
41

Molteni&C has extended the possibilities for Gliss Master, renewing the architectural concept of the nighttime area. The melamine offering is enriched with a new internal finish, a “White” texture, and a new warm Bronze finish, feminine and sophisticated, which represents the latest interpretation of this metal. The insides feature new accessories, such as the top of the structure which can be made of glass, to make the wardrobe even more transparent. The Master chest-of-drawers also has new tops, one made of transparent glass framed in Pewter and Bronze-coloured aluminium, which, thanks to the LED lighting, enhances the drawer inside; the other enriched with a stackable and pull-out threelayer trinket tray, which can be positioned at will. Two new options for the doors: “Swing” door, matt lacquered, which can be opened at 180°. “Twin” door, with the strong formal appeal typical of Vincent Van Duysen, with a new Pewter-coloured outer handle.

The Internet Of Things (IOT) joins the world of Molteni&C nighttime systems – Gliss Master and Master Dressing – with avant-garde solutions and innovations that guarantee wardrobes the best environmental quality. AIRCUB® – a Molteni&C exclusive – is an IOT device easily manageable from your smartphone with a dedicated APP. The air purification and perfuming system works by ionizing and ozonizing wardrobe interiors, thereby removing up to 95% of agents harmful to health, while releasing delicate fragrances.

Hinged doors with key lock

For the hinged doors specified, a key lock can be fitted to order. There is an additional cost for one or two doors. It can even be fitted on a terminal element or a corner element (in compliance with the handle installation rules). For doors with a lock, the internal drawer units must be suspended. Installation of only the lock can be requested, without a handle, always considering the price of the START doors and the additional cost of the lock.

CORNER ELEMENT

Corner element D 595 - open or with GLASS/SWING doors

The corner element is provided complete with a base, lid and backs (melamine or fine grain). Between the corner element and the adjacent modules, it is necessary to insert central partitions in melamine, frame or glass.

The corner element can also receive a side panel to close the composition. Compartments adjacent to the closed corner element can be open or closed with GLASS or SWING doors.

Notes

The shelf is not included in the price of the corner element. Shelves and lids can be fitted with LED lighting bars, as indicated in the drawing below.

Reductions

The corner element can be reduced in height, width and depth. In width, the reduction can be carried out either on one side only or on both sides, up to a minimum width of 1101 mm.

Reduction in depth can be done on one or on two sides, up to a minimum of 435 mm. If only one side is reduced, that will be the side with the longest shelves (*).

Molteni & C

8—

STRUCTURE

Structure for walk-in closet

In version **A**, the structure (base, lid, central partitions, back and side panels) is in melamine, in the same finish as the structure.

The back piece can also be provided in fine grain finish.

The side panels are always provided without extension profile (see detail).

In version **B**, the central partitions and sides are made with an aluminium frame with pewter colour or bronze finish, with or without glass.

Base, lid and back piece are in melamine, in the same finish as the structure.

The back piece can also be provided in fine grain or glass finish.

Horizontal tags on the base and lid are made in a pewter colour or bronze finish like the side frames.

In version **C**, given the presence of frame sides in pewter colour finish, the central and side partitions in melamine are also made with from tags in pewter colour or bronze, considering the specific price.

STRUCTURE

Linear modules

Linear modules are made up of a base and lid always made in melamine in the same finish as the structure.

The back is available in the three versions indicated below.

A1 and **A2** can be reduced in height, width and depth if closed by sides and doors that are compatible with the requested reductions.

A3 can be reduced only in height.

Central partitions

These are available in melamine, in the same finishes as the structure, frame and glass.

The melamine version can be reduced in height and depth.

The frame and glass versions can be reduced only in height.

Compartments with frame or glass sides must always include a shelf or a drawer unit.

Side panels

These are available in melamine, in the same finishes as the structure, frame and glass. The melamine version can be reduced in height and depth.

The outside of the side panel is available in the matt lacquer, glossy lacquer or wooden (vertical grain) finishes.

The standard finish on side panels is an extension profile in the coloured matt lacquer, pewter colour, bronze, shiny aluminium or black chrome finishes (to be specified in the Order). The extension profiles for glossy lacquer or wood side panels always match the side panels of the same finish.

The frame and glass versions can be reduced only in height.

Compartments with frame or glass sides must always include a shelf or a drawer unit.

Cuts to measure

Diagonal cut doors (only for wardrobes with wooden sides)

When compiling the order, indicate the heights H1 and H2 and the width L as in the example.

The cost of a diagonal cut for each single door is the same as that for the hinged door in the table on page of the doors.

Compositions with diagonal slant are always built with single-door compartments. Only fitted with START, TWIN, "A FILO", GRIP or DEEP hinged doors. Doors must be hinged to the highest side panel. The door finish options for slanted wardrobes are restricted to cartapaglia, matt lacquer and matt lacquered cartapaglia. Structures can be either in standard sizes or customised.

Standard or cut-to-size doors (only for wardrobes with wooden sides)

For these solutions you can use either single or double units with hinged doors.

FILLERS AND OPENING SIDE TRIMS

Horizontal filler

The filler is supplied in two parts, one part to be fixed to the ceiling to which the other will be hooked on (see diagram below).

The distance of the filler from the door is the client's decision.

In the cartapaglia finish, the grain direction is always vertical.

In the wood and graffiato finish, the grain direction is always horizontal.

Vertical filler

The vertical filler can be placed flush with the structure or the door.

This detail must be specified in the order to prepare the side panel (see example).

If this detail is not specified when placing the order, the filler will automatically be placed flush with the structure and the side panel will have the extension profile.

Opening fillers

Can be made with START and "A FILO" door. For handles, see surcharge.

Always have the 155° hinges.

Are the same height as the other doors in the composition.

Have a closing strip on their lower part.

In the wood finish, the grain direction is always vertical.

LIGHTING SYSTEM

Lighting bars with front LEDs

Internal compartments of Gliss Master wardrobes can be equipped with front LED lighting. The lighting bar can be applied to lids or to wooden, transparent glass and Eco Skin shelves. Using the electrified wire strip installed on the side (wood, frame or glass), the shelf can be moved. For each compartment length, we have made specific lighting bars with wiring compliant with European safety standards.

A wire strip is not needed if the compartment only has lighting on the top piece.

Lighting bars can be reduced with a surcharge for the shelf cutting.

Lighting shelves

It is possible to insert one or more lighting shelves in Gliss Master compartments. Using the electrified wire strip mounted on the side panel, the lighting shelf can be moved.

Lighting shelves can be connected to the wire strip on the left side panel or can be mounted without wire strip.

Notes

When placing the order, the customer must indicate how many shelves with lighting bars or lighting shelves are required. Lighting bars or lighting shelves can be placed in the same compartment. **For assembly: a lighting system on wardrobe with hinged doors requires a minimum extra height of 5 cm (2").**

Individual wire strip is always installed on the left side panel of the compartment, with the exception of corner units for walk-in wardrobes and of the compartment next to the corner unit.

When ordering, indicate compartments with wire strip.

INTERNAL FITTINGS - MODULAR DRAWERS AND TRAYS

Notes

The parts of this internal fittings are produced with width and height dimensions corresponding to the modular compartments. This makes it possible to organise the internal spaces in a number of ways. To correctly and quickly determine the internal fittings, some of the possible compositions are in the following pages.

The pairs of side panels suspended or resting on the floor are essential for inserting all the elements.

Compositions must be completed with a top shelf.

When ordering, specify the handle finish as pewter colour or bronze.

No reductions of any kind can be made on drawers, trays and pairs of side panels.

Warnings on using compartments adjacent to the corner element

It is impossible to use trouser or trinket trays (used individually).

ISLAND DRAWER UNIT - DRAWER UNIT

Island drawer unit

Made completely in larix dark or silver cembran melamine and available in two versions: with or without trinket trays in dolomite lacquer. Shelves in Eco Skin are available in colours in the catalogue. Standard handles are mounted, in pewter colour or bronze finish. It is possible to make STANDARD handles covered in Eco Skin with a supplemental charge for each.

version with trinket trays

- Side A has 6 drawers H 190 and 2 extractable trinket tray blocks.
- Side B has 4 drawers H 190 and and lower open compartments.

version without trinket trays

- Side A has 6 drawers H 190 and upper open compartment.
- Side B has 4 drawers H 190 and and lower open compartments.

Dimensions of the island cannot be reduced, and the composition cannot be modified.

It is possible to substitute the melamine drawers with glass drawers by adding the difference in price from **CLN8/19** and **CVN8/19**.

It is possible to substitute the melamine drawers with drawers with fine grain fronts by adding the difference in price of the finishes of the code **CLN8/19**.
