

Kenneth sofa Faudet-Harrison

The Kenneth sofa by design duo Faudet-Harrison is a visually light piece that blends comfort with a formal sensibility. With space saving in mind, the sofa covers a small footprint and sits proudly on tall gently tapered solid ash legs. This piece is designed to create a cradle like sitting position, with curvaceous support provided by the generously upholstered arms and back. The sofa is made with an FSC approved beech frame, jute webbing and hessian straps and then covered with a mix of materials that includes natural fibres, animal hair and wool. The two seat cushions are feather filled.
