## MHC.1 — WERNER BLASER 1955 / 2016

1—  
2

The prototype of the first item of modern furniture ever produced by Molteni&C, the chest of drawers designed by Werner Blaser in 1955, is available again in a limited and numbered edition of 100 pieces, made of avodiré wood just like the original. Never produced on an industrial scale, it won the Cantù “Prima mostra selettiva - Concorso internazionale del mobile”, a competition designed to re-qualify the image of Italian furniture making. The jury included Gio Ponti, Alvar Aalto, Romano Barocchi, Carlo De Carli and Finn Juhl. The unusual joinery features a simple three-fork joint.

**Prima mostra selettiva - Concorso internazionale del mobile 1955**

### FEATURES

Drawer unit in AVODIRE wood like the original prototype of 1955.  
Drawers slide on wooden runners.
