TURNER— HANNES WETTSTEIN 2008

1—
5

Turner is a modular system, which offers a solution to different needs in terms of comfort and posture thanks to an easy mechanism. This one adjusts the depth of the seating, transforming the sofa from formal space into a real island of relaxation. Turner is perfect for the client who likes to mix and match, thanks to its design logic, based on modularity which means that traditional sofa can be combined with chaises longues and day bed islands.

DIMENSIONS

End units, central units, chaise longues and islands

Elements **cannot be used individually.**

All elements have back with mechanism.

The compositions are always closed at the side with an arm.

Molteni & C

3—
5

Corner

The corner element **cannot be used alone** but must be placed by a central, terminal or corner element, on the opposite side to the arm. The corner element comes with mechanism only on the long side.

Island element

The island element cannot be used alone, but must be used along with a central, end or corner element on the side opposite the armrest.

Sofa

The settee is a finite element which stands alone

DIMENSIONS

Notes

- Each single element (terminal, central, corner, chaise longue, island or sofa) must be completed, in the interests of ergonomic quality, with one or more back cushions to choose from: TCS60 - TCS70 - TCS80.
- The seating cushion cover for the island IS223 and sofa DI244, in contrast with all other elements, must have a front strip; when ordering one of these items, all the covers for the seating cushions in the Order will be made with a front strip.
