

## Rug Collection

Donna Wilson & SCP

The Rug Collection by Donna Wilson is a fine example of SCP's dedication to experimentation and love of production methods. The rugs are hand-made in India, using three different techniques: flat-weaving, hand-loomed and hand-tufted. All stages of the production process take place under one roof using these time-honoured techniques. Donna Wilson is a classically trained textile designer, she brings an intuitive understanding of how to harmonize process, pattern and colour to the Rug Collection.

The Rug Collection is made in India. SCP work with the highest quality craftsmen and women across the world. Going to the source for good design.

### Scope rug

Scope is a luxurious hand-tufted rug of bright colour and striking angular shapes. The rug takes inspiration from the kaleidoscope, its pattern and shape spinning out from the centre. Scope has a dense pile, giving the rug softness and warmth. Made in India.
