

Solstice Matthew Hilton

Solstice is a relaxed design that developed from the seed of an idea to create a fully upholstered piece that sits directly on the floor at the back. It is made from a European hardwood frame, zig-zag springs, jute webbing, hessian straps and covered with a mix of materials that includes natural fibres, animal hair and wool. It has two pure duck feather cushions and the legs come in bronze finished steel.

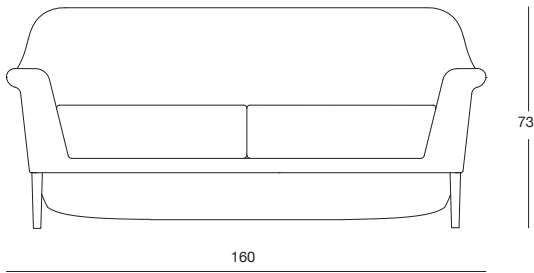

Subtle piping and seam details on the arms and cushion faces act as a counterpoint to the swooping curve of the design. Hilton imagines sofas as sculptures in our everyday living spaces that confidently occupy a space.
