Tom Tom and Tam Tam tables
Konstantin Grcic

Originally designed for SCP in 1992, the Tam Tam and Tom Tom tables have been re-issued by SCP. This pair of adjustable tables have mild steel bases finished in chocolate brown lacquer, solid beech columns finished in matt lacquer and MDF tops finished in light green and purple lacquer. This classical design by Konstantin Grcic is fluent in both its design language and its pragmatism. His eloquent use of the square and the circle evokes the spirit of the Bauhaus. Made in the EU.
