

A popular collection featuring a minimalist design. Technology and work habits are changing rapidly and only the essence of a table with refined proportions is able to stand the test of time.

The tops and storage units, made of white lacquered textured MDF, distinguish it from the usual melamine office furniture. As a result, the table is highly appreciated by architects and professionals.

The collection includes numerous sizes and configurations to meet the needs of both large offices and home studios.

TECHNICAL INFO

Both the 12 mm-thick top or work surface and the storage units are made of micro-textured white MDF, which provides good protection against scratches and creates a unique work surface without joints.
The steel structure is lacquered in thermoset epoxy in white.

FINISHES

white
RAL 9003

CERTIFICATES
