XXII Compasso d'Oro ADI

Cushions with a top stitched seam

Yale armchairs and sofas are now available in a new version in down with large, incredibly comfortable cushions.

Cushions

All padded parts are made of variable-density wadding and down with a top stitched seam which is both a joining and decorative element. All cushions are structural and come with removable covers.

Frame

Extruded aluminium frame with elastic bands, diecast aluminium feet and steel profile fixed to the frame that supports and holds the backrest and armrest cushions. The frame is painted in matt white or black.

Poufs

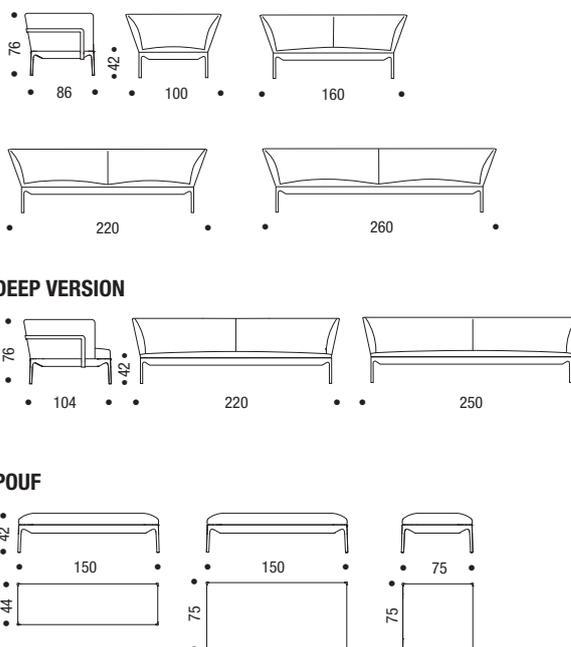

The collection now includes three new pouf models: L75xD75, L150xD75 and L150xD44 with frame H30 cm, always in the same finish as the sofa.

Cover

The upholstery in fabric or leather covers every part of the sofa and is completely removable. Optional extra covers are available if required. All units in leather may have, depending on their size and at MDF Italia's discretion, one or more seams.

For the choice of the upholstery, please see the table on page 1.69, as well as the "fabric collection" section on the website.

With customer's own leather, in order that the product is properly manufactured, the leather piece must be larger than 5 sqm and with no defects, such as scars or holes.
